

MAX Cybersecurity LLC will Support DoD: Cybersecurity Maturity Model Certification (CMMC)

The Office of the Under Secretary of Defense for Acquisition and Sustainment (OUSD(A&S)) recognizes that security is foundational to acquisition and should not be traded along with cost, schedule, and performance moving forward. The Department is committed to working with the Defense Industrial Base (DIB) sector to enhance the protection of controlled unclassified information (CUI) within the supply chain.

The CMMC will review and combine various cybersecurity standards and best practices and map these controls and processes across several maturity levels that range from basic cyber hygiene to advanced. For a given CMMC level, the associated controls and processes, when implemented, will reduce risk against a specific set of cyber threats.

The CMMC effort builds upon existing regulation (DFARS 252.204-7012) that is based on trust by adding a verification component with respect to cybersecurity requirements.

The goal is for CMMC to be cost-effective and affordable for small businesses to implement at the lower CMMC levels.

Authorized and accredited CMMC Third Party Assessment Organizations (C3PAOs) will conduct assessments and issue CMMC certificates to Defense Industrial Base (DIB) companies at the appropriate level.

Max Cybersecurity LLC can help you become CMMC Ready. For organizations looking to prepare prior to a CMMC assessment. This package includes:

- Identification of CMMC scope to help your organization understand the applicable control environment
- Performance of a gap analysis by CMMC and federal compliance experts against those controls
- Delivery of a POAM for the development of a remediation roadmap

For organizations looking to complete an assessment, Max Cybersecurity LLC is currently in-process to become one of a C3PAO's authorized to complete CMMC assessments / audits. Max Cybersecurity LLC can conduct your CMMC audit to help you achieve certification and win DoD contracts. Once certified, we will be there to guide organizations through the CMMC process at any certification level.
